

ColoRectal Cancer  
NETWORK MEETING

# program

[crcnetwork.net](http://crcnetwork.net)

## CURRENT MANAGEMENT & PREDICTION

Chair: David J. Kerr

- 09:30 **Welcome note**  
*David J.Kerr, University of Oxford*
- 09:40 **Surgical management of CRC**  
*Vegar Dagenborg, Oslo University Hospital*
- 10:10 **Adjuvant Treatment of CRC**  
*Jeffrey Rubasingham, University of Oxford*
- 10:40 **CRC genomics**  
*Ian Tomlinson, University of Oxford*
- 11:10 Coffee/tea break
- 11:30 **The evolutionary dynamics of colon cancer**  
*Trevor Graham, Institute of Cancer Research London*
- 12:00 **Clinical utility of genomic medicine in optimising patient therapy**  
*Andrew Beggs, University of Birmingham*
- 12:30 Lunch

## CURRENT MANAGEMENT & PREDICTION

Chair: Marco Novelli

- 13:30 **Circulating Tumor DNA-based Precision Oncology for Colorectal Cancer**  
*Yoshiaki Nakamura, National Cancer Center Hospital East, Kashiwa*
- 14:00 **AI to enhance discovery and to develop novel histology-based biomarkers**  
*Jens Rittscher, University of Oxford*
- 14:30 **Histotyping, a new prognostic marker in CRC**  
*Andreas Kleppe, ICGI, Oslo University Hospital*
- 15:00 Coffee/tea break
- 15:20 **Tumour heterogeneity and prognostic impact**  
*Håvard E. Danielsen, ICGI, Oslo University Hospital and University of Oxford*
- 15:50 **Non-inferiority, randomised controlled phase III trial with Histotyping**  
*David Kerr, University of Oxford*

## METASTASIS

Chair: Ian Tomlinson

- 09:30 **Hallmarks of invasive cancer cells**  
*Harald A. Stenmark, Oslo University Hospital*
- 10:00 **Hepatic metastases; knowns and unknowns**  
*Robert Jones, University of Liverpool*
- 10:30 **Immune cell heterogeneity within primary and metastatic colorectal cancer**  
*Colin Steele, CRUK Beatson Institute for Cancer Research, University of Glasgow*
- 11:00 Coffee/tea break
- 11:15 **Whole genome comparison of primary and metastatic cancer**  
*Arne van Hoeck, Hartwig Medical Foundation*
- 11:45 **Preclinical safety and feasibility of in situ Isolated Normothermic Liver Chemoperfusion**  
*Tamsyn Clarke, University of Oxford*

### Consider supporting our network!

Thank you for joining us at the fifth CRC Network Meeting.

We are confident that our efforts to encourage collaborations, and inspire the best and brightest scientific minds to continue your vital research, will contribute to improving treatment options for patients with colorectal cancer.

Your gift will **allow us to continue organizing free** Network Meetings.

Thank you for your support.
